2 Identification des dangers	
Classification de la substance ou d	-
Aérosols inflammables - catégorie 1	H222-H229 Aérosol extrêmement inflammable. Récipient sous pression: peut éclater sous l'effet de la chaleur.
Gaz sous pression - gaz liquéfié	H280 Contient un gaz sous pression; peut exploser sous
Cuz obao prosoion - gaz inquene	l'effet de la chaleur.
Irritation oculaire - catégorie 2A	H319 Provoque une sévère irritation des yeux.
Cancérogénicité – catégorie 2	H351 Susceptible de provoquer le cancer. Voie d'exposition:
— • • • • • • • • • • • • • • • • • • •	Respiration/Inhalation.
Toxicité pour la reproduction - catégo	
	exposition unique - catégorie 3 H336 Peut provoquer somnolence ou vertiges.
2	expositions répétées - catégorie H373 Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une exposition
_	prolongée.
Indications complémentaires:	
Pictogrammes de danger	
	$\bigvee \bigvee \bigvee \bigvee \bigvee$
	GHS02 GHS04 GHS07 GHS08
Mention d'avertissement	Danger
Mentions de danger	Aérosol extrêmement inflammable.
	Contient un gaz sous pression; peut exploser sous l'effet de la chaleur. Provoque une sévère irritation des yeux.
	Susceptible de provoquer le cancer. Voie d'exposition: Respiration/Inhalation.
	Peut nuire à la fertilité ou au fœtus.
	Peut provoquer somnolence ou vertiges. Risque présumé d'effets graves pour les organes à la suite d'expositions répétées ou d'une
	exposition prolongée.
Conseils de prudence	En cas de consultation d'un médecin, garder à disposition le récipient ou l'étiquette.
	Tenir hors de portée des enfants. Lire l'étiquette avant utilisation.
	Se procurer les instructions avant utilisation.
	Tenir à l'écart de la chaleur, des surfaces chaudes, des étincelles, des flammes nues et de toute
	autre source d'inflammation. Ne pas fumer. Ne pas vaporiser sur une flamme nue ou sur toute autre source d'ignition.
	Ne pas vaponser sur une namme nue ou sur toute autre source digmition. Ne pas perforer ni brûler, même après usage.
	Ne pas respirer les poussières/fumées/gaz/brouillards/vapeurs/aérosols.
	Se laver soigneusement après manipulation. Utiliser seulement en plein air ou dans un endroit bien ventilé.
	EN CAS D'INHALATION: Transporter la personne à l'extérieur et la maintenir dans une position où
	elle peut confortablement respirer.
	EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement
	enlevées. Continuer à rincer.
	Appeler un CENTRE ANTIPOISON/un médecin en cas de malaise.
	Si l'irritation des yeux persiste: Demander un avis médical/Consulter un médecin. Garder sous clef.
	Protéger du rayonnement solaire. Ne pas exposer à une température supérieure à 50 °C/122 °F.
	Éliminer le contenu/récipient conformément à la réglementation locale/régionale/nationale/
	internationale.

2 Hazard identification

Classification of the substance or mixture		
Flammable Aerosols - Category 1	H222-H229	Extremely flammable aerosol. Pressurized container: may burst if heated.
Gases Under Pressure - Liquefied Gas	H280	Contains gas under pressure; may explode if heated.
Eye Irritation - Category 2A	H319	Causes serious eye irritation.
Carcinogenicity – Category 2	H351	Suspected of causing cancer. Route of exposure: Inhalation.
Reproductive Toxicity - Category 1B	H360	May damage fertility or the unborn child.
Specific Target Organ Toxicity - Single Exposure - Category 3	H336	May cause drowsiness or dizziness.
Specific Target Organ Toxicity - Repeated Exposure - Category 2	H373	May cause damage to organs through prolonged or repeated exposure.
Additional information: GHS Hazard pictograms		

	GHS02 GHS04 GHS07 GHS08
Signal word	Danger
Hazard-determining components o labeling:	f Acetone Toluene titanium dioxide Isopropyl Alcohol
Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
Effects of chronic overexposure:	Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients Chemical characterization: Mixtures Chemical Description: This prod

This product is a mixture of the substances listed below with nonhazardous additions. (Contd. on page 2)

7 Handling and starses	
7 Handling and storage	
Precautions for safe handling	Use only in well ventilated areas.
Fire/explosion protection:	Keep respiratory protective device available. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e.
	electric lights. Do not pierce or burn, even after use.
	Do not spray on a naked flame or any incandescent material. Do not smoke. Protect from
	electrostatic discharges.
Conditions for safe storage:	
Storage requirements:	Keep away from sources of heat and direct sunlight. Do not warehouse in subfreezing conditions.
·	Store locked up.

Exposure controls	
Hygienic protection:	Keep away from foodstuffs and animal feed. Wash hands after use.
	Immediately remove all soiled and contaminated clothing.
	Wash hands after use.
	Store protective clothing separately. Avoid contact with the eyes and skin.
	Do not eat or drink while working.
Breathing equipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In
	cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn.
Hand protection:	If you suspect overexposure conditions exist, please consult an authority on chemical hygeine. Nitrile gloves.
Hand protection:	The glove material must be impermeable and resistant to the substance.

2 Hazard identification

Classification of the substance or mixture Flammable Aerosols - Category 1

Gases Under Pressure - Liquefied GasH280Eye Irritation - Category 2AH319Reproductive Toxicity - Category 1BH360Specific Target Organ Toxicity - Single Exposure - Category 3H336Specific Target Organ Toxicity - Repeated Exposure - Category 2H373

H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated.

- Contains gas under pressure; may explode if heated.
- 19 Causes serious eye irritation.
 - May damage fertility or the unborn child.
 - May cause drowsiness or dizziness.
 - May cause damage to organs through prolonged or repeated exposure.

Additional information: GHS Hazard pictograms

Signal word	Danger
Hazard-determining components of labeling:	Acetone Toluene Isopropyl Alcohol
Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
Effects of chronic overexposure:	Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients Chemical characterization: Mixtures Chemical Description: This product is a mixture of the substances listed below with nonhazardous additions. Dangerous components: 67-64-1 Acetone 25-50% w/w * Flammable Liquids - Category 2, H225; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity -Single Exposure - Category 3, H336 25-50% w/w *

2 Hazard identification

Classification of the substance or mixture Flammable Aerosols - Category 1

Gases Under Pressure - Liquefied GasH280Eye Irritation - Category 2AH319Reproductive Toxicity - Category 1BH360Specific Target Organ Toxicity - Single Exposure - Category 3H336Specific Target Organ Toxicity - Repeated Exposure - Category 2H373

- H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated.
 - Contains gas under pressure; may explode if heated.
 - 19 Causes serious eye irritation.
 - May damage fertility or the unborn child.
 - May cause drowsiness or dizziness.
 - May cause damage to organs through prolonged or repeated exposure.

Additional information: GHS Hazard pictograms

Signal word	Danger
Hazard-determining components of labeling:	Acetone Toluene Isopropyl Alcohol
Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up.
Effects of chronic overexposure:	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients Chemical characterization: Mixtures Chemical Description: This product is a mixture of the substances listed below with nonhazardous additions. Dangerous components: 67-64-1 67-64-1 Acetone Flammable Liquids - Category 2, H225; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H336 Specific concentration limit: Specific Target Organ Toxicity - Single Exposure - Category 3; H336: C ≥ 10 %

2 Hazard identification		
Classification of the substance or Flammable Aerosols - Category 1		remely flammable aerosol. Pressurized container: may

Flammable Aerosols - Category 1	H222-I
Gases Under Pressure - Liquefied Gas	H280
Eye Irritation - Category 2A	H319
Reproductive Toxicity - Category 1B	H360
Specific Target Organ Toxicity - Single Exposure - Category 3	H336

Specific Target Organ Toxicity - Repeated Exposure - Category 2 H373

H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated.
 H280 Contains gas under pressure; may explode if heated.

- Causes serious eye irritation.
 - May damage fertility or the unborn child.
 - May cause drowsiness or dizziness.
 - May cause damage to organs through prolonged or repeated exposure.

Additional information: GHS Hazard pictograms

Signal word	Danger
Hazard-determining components of labeling:	f Acetone
-	Toluene
Hazard statements	Isopropyl Alcohol Extremely flammable aerosol.
nazaru statements	Contains gas under pressure; may explode if heated.
	Causes serious eye irritation.
	May damage fertility or the unborn child.
	May cause drowsiness or dizziness.
Processitionary statements	May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children.
	Read label before use.
	Obtain special instructions before use.
	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	Do not spray on an open flame or other ignition source.
	Do not pierce or burn, even after use.
	Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling.
	Use only outdoors or in a well-ventilated area.
	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and
	easy to do. Continue rinsing.
	Call a poison center/doctor if you feel unwell.
	If eye irritation persists: Get medical advice/attention. Store locked up.
	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
	Dispose of contents/container in accordance with local/regional/national/international regulations.
Effects of chronic overexposure:	May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

Hygienic protection:	Keep away from foodstuffs and animal feed. Wash hands after use.		
	Immediately remove all soiled and contaminated clothing.		
	Wash hands after use. Store protective clothing separately.		
	Avoid contact with the eyes and skin.		
	Do not eat or drink while working.		
Breathing equipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In		
• • •	cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn.		
	If you suspect overexposure conditions exist, please consult an authority on chemical hygeine.		
Hand protection:	Nitrile gloves. The glove material must be impermeable and resistant to the substance.		
Eye protection:	Tightly sealed goggles		
9 Physical and chemical propertie			
Appearance:	Aerosol.		
Odor:	Acrosoft		
Odor threshold:	Not determined.		
	Not determined.		
pH-value: Melting point/Melting range	Undetermined.		
Boiling point:	-44 °C		
Flash point: Flammability (solid, gas):	-19 °C Extremely flammable.		
	-		
Decomposition temperature:	Not determined. (Contd. on page 4)

2 Hazard identification

Classification of the substance or mixture Flammable Aerosols - Category 1 H222-H229 Extremely flammable aerosol. Pressurized container: may burst if heated. Gases Under Pressure - Liquefied Gas H280 Contains gas under pressure; may explode if heated. Eye Irritation - Category 2A H319 Causes serious eye irritation. Carcinogenicity - Category 2 H351 Suspected of causing cancer. Route of exposure: Inhalation. Reproductive Toxicity - Category 1B H360 May damage fertility or the unborn child. Specific Target Organ Toxicity - Single Exposure - Category 3 H336 May cause drowsiness or dizziness. Specific Target Organ Toxicity - Repeated Exposure - Category 2 H373 May cause damage to organs through prolonged or repéated exposure. Additional information: **GHS Hazard pictograms**

	GHS02 GHS04 GHS07 GHS08
Signal word	Danger
Hazard-determining components o labeling:	5
Hazard statements	Isopropyl Alcohol Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation.
Precautionary statements	May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. If medical advice is needed, have product container or label at hand.
,	Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray.
	Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up.
Effects of chronic overexposure:	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

7 Handling and storage	
Precautions for safe handling Fire/explosion protection:	Use only in well ventilated areas. Keep respiratory protective device available. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Do not smoke. Protect from electrostatic discharges.
Conditions for safe storage: Storage requirements:	Keep away from sources of heat and direct sunlight. Do not warehouse in subfreezing conditions. Store locked up.

None of the ingredients is listed.		

12 Ecological information	
Aquatic toxicity: Persistence and degradability: Bioaccumulative potential: Mobility in soil: Other adverse effects:	Hazardous for water, do not empty into drains. The product is degradable after prolonged exposure to natural weathering processes. No further relevant information available. No further relevant information available. No further relevant information available.

13 Disposal considerations

Dispose of in accordance with local, st	ate, and federal regulations. Do not puncture, incinerate, or compact. Partially empty cans must be
disposed of responsibly. Do not heat or	cut empty containers with electric or gas torches.
Recommendation:	Completely empty cans should be recycled.
Recommended cleansing agent:	Water, if necessary with cleansing agents.

2 Hazard identification		
	misture	
Classification of the substance or I		
Flammable Aerosols - Category 1	H222-H229 Extreme burst if h	ely flammable aerosol. Pressurized container: may neated.

Gases Under Pressure - Liquefied Gas	H280	Contains gas under pressure; may explode if heated.
Eye Irritation - Category 2A	H319	Causes serious eye irritation.
Carcinogenicity – Category 2	H351	Suspected of causing cancer. Route of exposure: Inhalation.
Reproductive Toxicity - Category 1B	H360	May damage fertility or the unborn child.
Specific Target Organ Toxicity - Single Exposure - Category 3	H336	May cause drowsiness or dizziness.
Specific Target Organ Toxicity - Repeated Exposure - Category 2	2 H373	May cause damage to organs through prolonged or repeated exposure.

Additional information: GHS Hazard pictograms

Signal word Danger Hazard-determining components of Acetone labeling: Toluene Isopropyl Alcohol Extremely flammable aerosol. **Hazard statements** Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. If medical advice is needed, have product container or label at hand. **Precautionary statements** Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container in accordance with local/regional/national/international regulations. Effects of chronic overexposure: May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients

Chemical characterization: Mixtures

Chemical Description:	This product is a mixture of the substances listed below with nonhazardous addition	S.

2 Hazard identification

Classification of the substance or mixture		
Flammable Aerosols - Category 1	H222-H22	9 Extremely flammable aerosol. Pressurized container: may burst if heated.
Gases Under Pressure - Liquefied Gas	H280	Contains gas under pressure; may explode if heated.
Eye Irritation - Category 2A	H319	Causes serious eye irritation.
Carcinogenicity – Category 2	H351	Suspected of causing cancer. Route of exposure: Inhalation.
Reproductive Toxicity - Category 1B	H360	May damage fertility or the unborn child.
Specific Target Organ Toxicity - Single Exposure - Category 3	H336	May cause drowsiness or dizziness.
Specific Target Organ Toxicity - Repeated Exposure - Category 2	H373	May cause damage to organs through prolonged or repeated exposure.
Additional information: GHS Hazard pictograms		

	GHS02 GHS04 GHS07 GHS08
Signal word	Danger
Hazard-determining components of labeling:	Acetone Toluene titanium dioxide Isopropyl Alcohol
Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up.
Effects of chronic overexposure:	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients Chemical characterization: Mixtures Chemical Description: This prod

This product is a mixture of the substances listed below with nonhazardous additions. (Contd. on page 2)

4 First-aid measures			
After inhalation: After skin contact: After eye contact: After swallowing: Information for doctor:	Supply fresh air; consult doctor in case of complaints. Remove contaminated clothing. Wash exposed area with soap and water. Rinse opened eye for several minutes under running water. If symptoms persist, co Rinse out mouth and then drink plenty of water. Rinse mouth with water. Do not induce vomiting.	onsult a doctor.	
Most important symptoms and effects: Dizziness			
effects: Dizziness Indication of any immediate medical attention needed: No further relevant information available.			
5 Fire-fighting measures			
Extinguishing agents: Special hazards:	CO2, extinguishing powder or water spray. Fight larger fires with water spray. Can form explosive gas-air mixtures.		
Protective equipment for firefighters:	A respiratory protective device may be necessary.		
6 Accidental release measures			
Personal precautions, protective			
equipment and emergency procedures:	Wear protective equipment. Keep unprotected persons away.		
procedures.	Use respiratory protective device against the effects of fumes/dust/aerosol.		
Environmental precautions:	Do not allow product to reach sewage systems or ground water.		
Methods and material for			
containment and cleaning up:	Ensure adequate ventilation. Dispose contaminated material as waste according to section 13.		
PAC-2:	Dispose containinated material as waste according to section 13.		
67-64-1 Acetone		3200* ppm	
74-98-6 propane		17000** ppm	
108-88-3 Toluene		560

(Contd. of page 2)

7 Handling and storage	
Precautions for safe handling Fire/explosion protection:	Use only in well ventilated areas. Keep respiratory protective device available. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Do not smoke. Protect from electrostatic discharges.
Conditions for safe storage: Storage requirements:	Keep away from sources of heat and direct sunlight. Do not warehouse in subfreezing conditions. Store locked up.

8 Exposure controls/ Personal protection

o Exposure controls/ Personal protection			
Components with limit values that require monitoring at the workplace:			
67-64-1 Acetone			
EL STEL: 500 ppm TWA: 250 ppm			
EV STEL: 750 ppm TWA: 500 ppm			
74-98-6 propane

67-63-0 Isopropyl Alcohol			
EL STEL: 400 ppm TWA: 200 ppm			
EV STEL: 400 ppm TWA: 200 ppm			
Exposure controls			
Hygienic protection:	Keep away from foodstuffs and animal feed. Wash hands after use. Immediately remove all soiled and contaminated clothing. Wash hands after use. Store protective clothing separately. Avoid contact with the eyes and skin. Do not eat or drink while working.		
Breathing equipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn. If you suspect overexposure conditions exist, please consult an authority on chemical hygeine.		
Hand protection:	Nitrile gloves. The glove material must be impermeable and resistant to the substance.		
Eye protection:	Tightly sealed goggles

Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation. May damage fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents/container in accordance with local/regional/national/international regulations.
Effects of chronic overexposure:	May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

3 Composition/Information on ingredients

Chemical characterization: Mixtures Chemical Description:

This product is a mixture of the substances listed below with nonhazardous additions.

(Contd. on page 2)

Printing date 08/04/2022

Trade name: FASCO GLOSS WHITE

		(Contd. of page 1
Dangerous	components:	(Conta: of page)
	Acetone Flammable Liquids - Category 2, H225; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H336 Specific concentration limit: Specific Target Organ Toxicity - Single Exposure - Category 3; H336: C ≥ 10 %	15-25% w/w *
74-98-6	propane Flammable Gases - Category 1, H220	15-25% w/w *
64742-89-8	VM&P Naphtha Flammable Liguids - Category 2, H225	10-15% w/w *
106-97-8	n-butane Flammable Gases - Category 1, H220	10-15% w/w *
64742-47-8	Mineral Spirits Flammable Liquids - Category 3, H226	5-10% w/w *
13463-67-7	titanium dioxide Carcinogenicity – Category 2, H351	5-10% w/w *
108-88-3		≥5-<10% w/w *
67-63-0	Isopropyl Alcohol Flammable Liquids - Category 2, H225; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H336	1-5% w/w *
	* Actual concentration ranges are withheld as a trade secret.	

4 First-aid measures	
After inhalation: After skin contact: After eye contact: After swallowing: Information for doctor: Most important symptoms and	Supply fresh air; consult doctor in case of complaints. Remove contaminated clothing. Wash exposed area with soap and water. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. Rinse mouth with water. Do not induce vomiting.
effects:	Dizziness
Indication of any immediate medica attention needed:	No further relevant information available.
5 Fire-fighting measures	
Extinguishing agents: Special hazards:	CO2, extinguishing powder or water spray. Fight larger fires with water spray. Can form explosive gas-air mixtures.
Protective equipment for firefighters:	A respiratory protective device may be necessary.
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures: Environmental precautions: Methods and material for	Use respiratory protective device against the effects of fumes/dust/aerosol. Do not allow product to reach sewage systems or ground water.
containment and cleaning up:	Dispose contaminated material as waste according to section 13.

Exposure controls Hygienic protection:	Immediately remove all soiled and contaminated clothing. Wash hands after use.
	Store protective clothing separately. Avoid contact with the eyes and skin. Do not eat or drink while working.
Breathing equipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn. If you suspect overexposure conditions exist, please consult an authority on chemical hygeine.
Hand protection:	Protective gloves Nitrile gloves
Eye protection:	The glove material must be impermeable and resistant to the substance. Tightly sealed goggles

9 Physical and chemical properties

o i nyelear ana enemiear proper		
Appearance: Odor: Odor threshold:	Aerosol. Aromatic Not determined.	
pH-value: Melting point/Melting range Boiling point:	Not determined. Undetermined. -44 °C	
Flash point: Flammability (solid, gas):	-19 °C Extremely flammable.	
Decomposition temperature:	Not determined.	
Auto igniting:	Product is not self-igniting.	
Danger of explosion: Lower Explosion Limit: Upper Explosion Limit:	In use, may form flammable/explosive vapour-air mixture. 1.7 Vol % 10.9 Vol %	
Vapor pressure: Relative Density: Vapor density Evaporation rate	Not determined. Between 0.77 and 0.85 (Water equals 1.00) Not determined. Not applicable.	(Contd. on page 4)

2 Hazard identification		
Classification of the substance or r	nixture	
Flammable Aerosols - Category 1	H222-H2	229 Extremely flammable aerosol. Pressurized container: may burst if heated.
Gases Under Pressure - Liquefied Ga	s H280	Contains gas under pressure; may explode if heated.
Eye Irritation - Category 2A	H319	Causes serious eye irritation.
Carcinogenicity – Category 2	H351	Suspected of causing cancer. Route of exposure: Inhalation.

May cause drowsiness or dizziness.

repéated exposure.

May cause damage to organs through prolonged or

Carcinogenicity – Category 2 Specific Target Organ Toxicity - Single Exposure - Category 3 Specific Target Organ Toxicity - Repeated Exposure - Category 2 H336

Additional information: GHS Hazard pictograms

GHS02 GHS04 GHS07 GHS08 Danger

Signal word	Danger
Hazard-determining components of labeling:	: Acetone titanium dioxide butyl acetate Isopropyl Alcohol
Hazard statements	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Suspected of causing cancer. Route of exposure: Inhalation. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
Effects of chronic overexposure:	Dispose of contents/container in accordance with local/regional/national/international regulations. May cause permanent brain and nervous system damage. Repeated overexposure can also damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the contents may be harmful or fatal.

7 Handling and storage	
Precautions for safe handling	Use only in well ventilated areas.
Fire/explosion protection:	Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e.
	electric lights. Do not pierce or burn, even after use.
	Do not spray on a naked flame or any incandescent material. Do not smoke. Protect from electrostatic discharges.
	electiostatic discharges.
Conditions for safe storage:	
Storage requirements:	Keep away from sources of heat and direct sunlight. Do not warehouse in subfreezing conditions. Store locked up.
8 Exposure controls/ Personal pr	otection
Components with limit values that	require monitoring at the workplace:

TWA: 50 ppm	
EV TWA: 270 mg/m ³ , 50 ppm	
Exposure controls	
Hygienic protection:	Keep away from foodstuffs and animal feed. Wash hands after use.
	Immediately remove all soiled and contaminated clothing.
	Wash hands after use. Avoid contact with the eyes and skin.
	Do not eat or drink while working.
Breathing equipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In
	cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn.
	If you suspect overexposure conditions exist, please consult an authority on chemical hygeine. (Contd. on page 4)

2 Hazard identification			
Classification of the substance or n	nixture		
Flammable Aerosols - Category 1		H222-H22	229 Extremely flammable aerosol. Pressurized container: may burst if heated.
Gases Under Pressure - Liquefied Gas	6	H280	Contains gas under pressure; may explode if heated.
Eye Irritation - Category 2A		H319	Causes serious eye irritation.
Specific Target Organ Toxicity - Single	e Exposure - Category 3	H336	May cause drowsiness or dizziness.

May cause damage to organs through prolonged or repeated exposure.

Additional information: GHS Hazard pictograms

Signal word Danger Hazard-determining components of labeling: Acetone

Specific Target Organ Toxicity - Repeated Exposure - Category 2 H373

nazaru-ueterinning components o	
labeling:	Acetone
0	Isopropyl Alcohol
	butyl acetate
Hazard statements	Extremely flammable aerosol.
nazaru statements	Contains gas under pressure; may explode if heated.
	Causes serious eye irritation.
	May cause drowsiness or dizziness.
	Maý cause damage to organs through prolonged or repeated exposure.
Precautionary statements	If medical advice is needed, have product container or label at hand.
-	Keep out of reach of children.
	Read label before use.
	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	Do not spray on an open flame or other ignition source.
	Do not pierce or burn, even after use.
	Do not breathe dust/fume/gas/mist/vapours/spray.
	Wash thoroughly after handling.
	Use only outdoors or in a well-ventilated area.
	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and
	easy to do. Continue rinsing
	Call a poison center/doctor if you feel unwell.
	If eye irritation persists: Get medical advice/attention.
	Store locked up.
	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
	Dispose of contents/container in accordance with local/regional/national/international regulations.
Effects of chronic overexposure:	May cause permanent brain and nervous system damage. Repeated overexposure can also
	damage kidneys, lungs, liver, heart, and blood. Intentional misuse by deliberately inhaling the
	contents may be harmful or fatal.

3 Compo	ition/Information on ingredients	
	<pre>I characterization: Mixtures I Description: This product is a mixture of the substances listed below with nonhazardous additio</pre>	ns.
Dangero	us components:	
67-64	1 Acetone Flammable Liquids - Category 2, H225; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H336 Specific concentration limit: Specific Target Organ Toxicity - Single Exposure - Category 3; H336: C ≥ 10 %	25-50% w/w *

7 Handling a	nd storage		
Precautions	for safe handling	Use only in well ventilated areas.	

Precautions for safe handling Fire/explosion protection:

Use only in well ventilated areas. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use.

	according to HPR, Schedule 1	
Printing date 08/04/2022		Revised On 08/04/2022
Trade name: FASCO RED OXIDE PRIMER		
	Do not spray on a naked flame or any incandescent material. Do not smolelectrostatic discharges.	(Contd. of page 2) ke. Protect from
Conditions for safe storage: Storage requirements:	Keep away from sources of heat and direct sunlight. Do not warehouse in subfree Store locked up.	eezing conditions.

11 Toxicological information

LD/LC50 values that are relevant for classification:	
110-19-0 Isobutyl Acetate	
Oral LD50 4,763 mg/kg (rbt)	
67-63-0 Isopropyl Alcohol	
Oral LD50 4,570 mg/kg (rat)	
Dermal LD50 13,400 mg/kg (rab)	
Inhalative LC50/4 h 30 mg/l (rat)	
123-86-4 butyl acetate	
Oral LD50 14,000 mg/kg (rat)	
Inhalative LC50/4 h >21 mg/l (rat)	
108-65-6 PM acetate	
Oral LD50 8,500 mg/kg (rat)	
Inhalative LC50/4 h 35.7 mg/l (rat)	
Information on toxicological effects:	
Skin effects: No irritant effect.	
Eye effects:Irritating effect.Sensitization:No sensitizing effects known.	
IARC (International Agency for Research on Cancer)	
67-63-0 Isopropyl Alcohol	3
1309-37-1 red iron oxide pigment	3
14807-96-6 Talc	3
NTP (National Toxicology Program)	
None of the ingredients is listed.	

12 Ecological information

•	
Aquatic toxicity:	Hazardous for water, do not empty into drains.
Persistence and degradability:	The product is degradable after prolonged exposure to natural weathering processes.
Bioaccumulative potential:	No further relevant information available.
Mobility in soil:	No further relevant information available.
Other adverse effects:	No further relevant information available.
Utilei auveise elleuls.	

13 Disposal considerations

Dispose of in accordance with local, state, and federal regulations. Do not puncture, incinerate, or compact. Partially empty cans must be disposed of responsibly. Do not heat or cut empty containers with electric or gas torches. **Recommendation:**Completely empty cans should be recycled.

Coefficient de partage: n-octanol/eau		
Viscosité: Eau:	Not determined. 0.0 %	
Autres informations	Pas d'autres informations importantes disponibles.	
10 Stabilité et réactivité		

Décomposition thermique/ conditions à éviter: Possibilité de réactions dangereuses

Stable à température ambiante.

Aucune réaction dangereuse connue.

Date d'impression : 04.08.2022

Révision: 04.08.2022

Nom du produit: FASCO ÉMAIL BLEU MO	EN
Matières incompatibles: Produits de décomposition	Pas d'autres informations importantes disponibles.
dangereux:	Pas de produits de décomposition dangereux connus
11 Données toxicologiques	
Toxicité aiguë	
Valeurs LD/LC50 déterminantes po	ir la classification:
13463-67-7 dioxyde de titane	
Oral LD50 >20.000 mg/kg	
Dermique LD50 >10.000 mg/kg	(rbt)
Inhalatoire LC50/4 h >6,82 mg/l (rat)	
67-63-0 2-propanol	A)
Oral LD50 4.570 mg/kg (ra	
Dermique LD50 13.400 mg/kg (Inhalatoire LC50/4 h 30 mg/l (rat)	
Corrosion cutanée/irritation cutané	Pas d'effet d'irritation
Lésions oculaires graves/irritation	
oculaire	Effet d'irritation.
Sensibilisation respiratoire ou	
cutanée	Aucun effet de sensibilisation connu.
12 Données écologiques	
Toxicité aquatique:	Pas d'autres informations importantes disponibles. Le produit est biodégradable après adaptation prolongée.
Persistance et dégradabilité Potentiel de bioaccumulation	Pas d'autres informations importantes disponibles.
Mobilité dans le sol	Pas d'autres informations importantes disponibles.
Indications générales:	Danger pour l'eau potable dès fuite d'une quantité minime dans le sous-sol.
	Danger pour l'eau potable dès fuite d'une petite quantité dans le sous-sol.
	Catégorie de pollution des eaux 1 (D) (Classification propre): peu polluant Ne pas laisser le produit, non dilué ou en grande quantité, pénétrer la nappe phréatique, les eaux
• · · • • • • •	ou les canalisations.
Autres effets néfastes	Pas d'autres informations importantes disponibles.
13 Données sur l'élimination	
Recommandation:	Ne doit pas être évacué avec les ordures ménagères. Ne pas laisser pénétrer dans les égouts.
Emballages non nettoyés: Recommandation:	
Recommandation:	Evacuation conformément aux prescriptions légales.
14 Informations relatives au transp	
Numéro ONU DOT/TMD	UN1950 UN1950
IMDG	AEROSOLS
Classe(s) de danger pour le transpo	rt
Classe	2.1 Gaz.
Groupe d'emballage ADR	néant
Marine Pollutant:	Non
Précautions particulières à prendre	par l'utilisateur Attention: Gaz.
Numéro d'identification du danger	
No EMS: Stowage Code	F-D,S-U SW1 Protected from sources of heat.
Stowage Code	SW22 For AEROSOLS with a maximum capacity of 1 litre: Category A. For
	AEROSOLS with a capacity above 1 litre: Category B. For WASTE AEROSOLS:
Segregation Code	Category C, Clear of living quarters.
Segregation Code	SG69 For AEROSOLS with a maximum capacity of 1 litre: Segregation as for class 9. Stow "separated from" class 1 except for division 1.4.
	For AEROSOLS with a capacity above 1 litre:
	Segregation as for the appropriate subdivision of class 2.
	For WASTE AEROSOLS: Segregation as for the appropriate subdivision of class 2.
